-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Receipt is acknowledged of papers filed under 35 U.S.C. 119 (a)-(d) based on an application filed in Korea on 10 November 2003. While the box regarding foreign priority in the Declaration is not checked, the foreign priority is specifically claimed in the application data sheet and thus Applicant has complied with the requirements of 37 CFR 1.63(c) regarding claims for foreign priority.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Cottone et al (5,277,358).

Cottone et al disclose an oil cooler structure (218, see Figs 11-13) including a upper and lower tube plate reinforcement (242 and 244), each arranged in a layer in an oil passage formed between plane parts of upper and lower tube plates (220 and 222) and respectively welded (by brazing) to the upper and lower tube plates (220 and 222) and to each other.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3753

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Cottone et al (5,277,358).

Cottone et al, as discussed above, shows the claimed structure with the exception of the shape of the reinforcement having one arched side and three straight sides. The shape of the reinforcement is considered to be a matter of design choice based on the shape of the space in which it is used. It is not seen that the shape of the reinforcement performs any function other than to fit into the shape of the space available to it. It would have been obvious to make the reinforcement members of Cottone et al in any desired shape to enable the reinforcement members to fit into the available space.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. So et al and Tajima et al are cited to show oil coolers. Coolidge and Sasaki et al are cited to show multi-level fin structures.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Teresa J. Walberg whose telephone number is 571-272-4790. The examiner can normally be reached on M-F 9:00 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Mancene can be reached on 571-272-4930. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
